Meet the Teams & Deako Overview

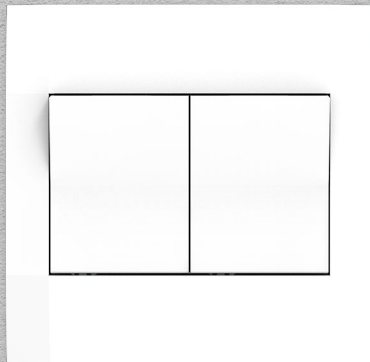

June 2025

Deako is a better looking switch that electricians can quickly install and integrators can quickly connect

Decorator

Deako

Toggle

- Snap-on Screwless faceplate design
- Clean, minimalist design
- Perfectly level, and aligned switches when side-by-side
- Matching outlet receptacles

Anyone can change a Deako
switch, safely, in seconds

Crawford Construction has made smart lighting truly Do-it-Yourself

- No tools required
- No running up & down turning off the power
- UL approved, with no risk of shock, or fire
- Changing a light switch doesn't require the hassle and cost of an electrician

For Every Buyer

Tech savvy, traditional, 55+ and anywhere in between. Deako light switches are flexible and customizable

Deako App

Available on iOS and Android; control smart devices with your phone from anywhere!

Groups - Control a group of smart devices in unison

Scenes - Create a mix of on/off/dim level changes that a switch in the home can trigger

Schedules - Automatic on/off/dim level changes scheduled at a specific time

Timers - Automatic off after a set amount of time

Integrations- Deako smart devices can be added and controlled through these popular apps:

Alexa, Google Home, ADT/Alarm.com, Control4, Clare, Samsung Smart Things, Home Assistant
